Password Reset Portal

Do you find resetting your password time-consuming?

Quistor has developed a tool to significantly increase end-users productivity, thus saving both time and money.

Not only will our portal allow you to reset your password via our online web portal, but it will significantly save you time and reduce or even eliminate your IT helpdesk department.

You will have total control over the password management process and your IT department can free up responsibility and focus on critical calls.

Features:

- Self Service: End users can reset their password themselves without having to log a call to the helpdesk.
- 24/7 availability: You can reset your password at anytime including weekends & holidays.
- Own password policy: The style of the password would be defined at set-up.
- Login possible anywhere: Reset passwords from any workstation due to access via a URL on the intranet.
- Question Configuration (optional): The memorable 'secret question' & number of attempts will also be set up.

Additional Benefits:

Saves time & money

Improved service level

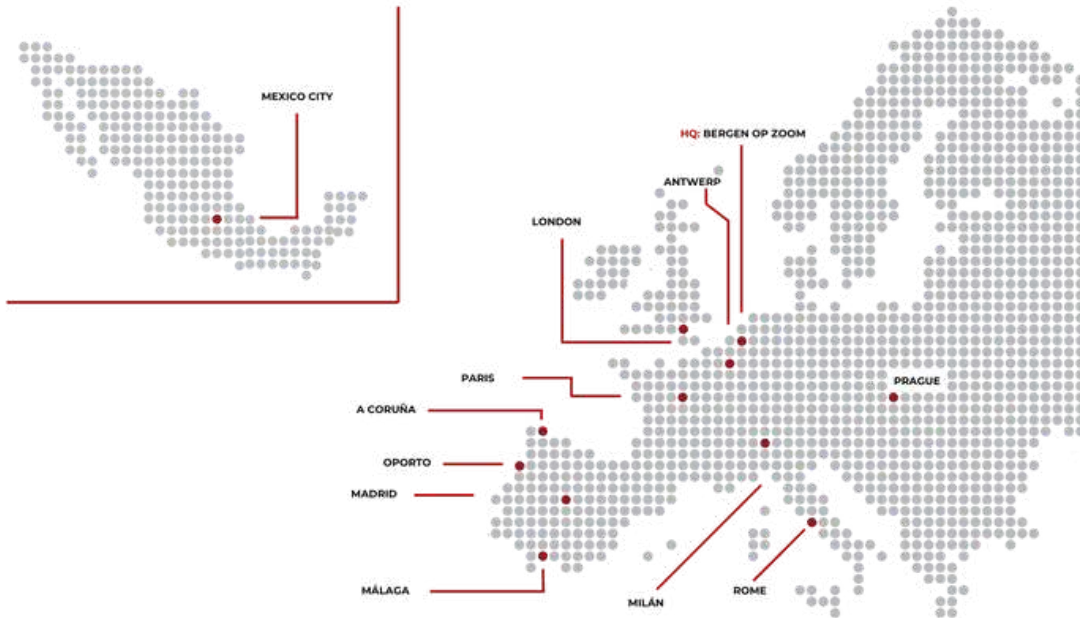

Higher Security

Fulfills Compliance

About Quistor

- 17 YEARS**
- 12 OFFICES**
