

JD EDWARDS

SII EXTRACTOR

SII Extractor

What is SII?

Looking at our customers needs Quistor has adapted JD Edwards to the current regulations, by developing the SII extractor. It is a VAT solution for Tax Authority (AEAT) exclusively for JD Edwards users.

How does it work?

Quistor SII Extractor automatically extracts data from F0018 (Invoices and Vouchers with Taxes table in JD Edwards), maps and uploads it to the Tax Authority.

Flexibility & Support

The Extractor is very flexible. It can be configured based on the specific needs of each company, making sure the business meets all the AEAT requirements. Quistor and SERES are here to ensure the Extractor runs smoothly. Customers receive our support on-site for the duration of implementation day. Moreover, Quistor offers individual support after go-live for physical implementation.

Benefits:

Saves time & money

Cloud Platform for monitoring and exchange VAT files with AEAT

Implementation on-site

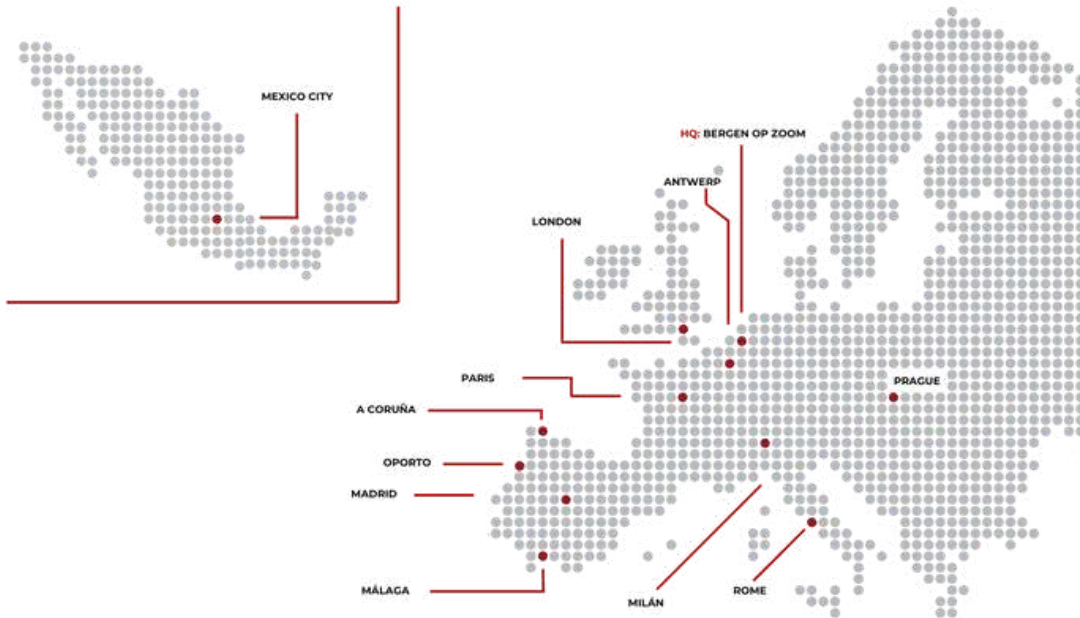

Long-term customer support

Individual Physical Analysis
